

# Stanislaus County Kid UPDATE

Hi - 'stanislaus county kid' is at the pressing plant and will go out on schedule, 1<sup>st</sup> week in march.

There are a few left for people who want the autograph and CD with artwork.

I'm offering it as a download, starting now - I realise how expensive it is, especially for non-europeans. It's expensive for europeans, too; that's the point of a limited-edition hand-signed CD - but it's about twice what a normal cd costs. The fall of the Almighty Dollar has taken it's toll, though, and shipping has gone through the roof. Which makes it 5 times more expensive than a CD for other parts of the world.

Hope you have as much fun listening as I did making it.

be well,
